RADIVIT

compost activator

1kg

Universal compost accelerator

Radavit contains compost bacteria, enzymes, fungi cultures and added nutrients which provide an easily digested nutritional medium for the micro-organisms which promote the breakdown of organic matter.

INTEGRATE

soil conditioner

 250ml
500ml

Maximises distribution and retention of water in the root zone for optimal plant care

Integrate is a soil surfactant that maximises lateral movement of water, nutrients, sterilants, fumigants and pesticides in the root zone. Integrate's scientifically developed dual action ensures that both dry and wet soils are balanced to ensure optimal moisture in the root zone.

Integrate has the ability to significantly reduce water loss from soils, while providing the necessary oxygenation to the plant roots.

BIOTRISSOL

fertilizer

 500ml
1ltr

Foliar feed to stimulate healthy plant growth and the formation of blooms

Biotrissol contains essential nutrients produced from natural fermentation of sugar beet.

The vitamins and growth promoting substances contained in Biotrissol strengthen the plant and will assist in the formation of blooms.

SEABRIX

fertilizer

500ml
1ltr

Soil nutrition to maximise plant health and growth

SeaBrix is a balanced plant and soil food comprising a broad range of macro, micro and trace minerals, including plant natural stimulating hormones, enzymes and amino acids. The formulation of kelp, fish hydrosolate, amino acids and triacontanol is blended to maximise plant health and plant growth.

COPPER SOAP

fungicide

 250ml
500ml

Broad spectrum protection against fungal infections

Copper Soap is a formulation of a naturally occurring fatty acid and soluble copper.

PHYTA

foliar feed & fungicide

 250ml
500ml

Plant tonic to build resistance against disease

Phyta's immune boosting nutrients are chelated with organic acids, making it easily absorbed by the plant.

The formulation stimulates active healthy growth and resistance to a range of diseases.

FINALSAN

herbacidal soap

 500ml

Broad spectrum organic weed killer

Finalsan is a fast acting, non-selective herbicide that controls common annual weeds, moss and algae.

BIONEEM

insecticide

 250ml
500ml

A preventative biopesticide, from plant origin, for the control of various insects

Bioneem is derived from the seed kernels of the Neem tree. It acts as a growth regulator, anti-feedant and insect repellent, and it will disrupt the normal metabolic activity of insects.

NEUDOSAN

insecticide

 250ml
500ml

*A target specific biopesticide, effective against soft bodied insects such as Aphids and Scale
Neudosan is formulated using potassium salts of fatty acids which have been selected for their insecticidal effects.*

PYROL

insecticide

 250ml
500ml

*Broad spectrum control for high insect pressure
Pyrol, a natural plant extract, is a broad spectrum contact insecticide.*

VEGOL

insecticide

500ml

**contains Canola Oil
Organic, broad spectrum contact insecticide with ovicidal activity.
Natural plant oil. Kills all stage of insects.*

FERRAMOL

snail pellets

500g
1kg
11kg

*Natural Snail and Slug Bait
Ferramol is an innovative organic molluscicide that protects plants effectively, without harming beneficial insects and the surrounding environment.
Ferramol is also user friendly when it comes to handling and application.
The active ingredient contained in Ferramol is iron phosphate*
