NATURAL { COIR }

*200g bag

COIR200 *Coir*

Coir improves soil drainage whilst retaining moisture in quick-draining soils. It breaks down slowly and excellent for growing seedlings, creating potting mix, pest resistant and ideal for lining of wire baskets.

^ brown coir fiber from coconuts

NATURAL { VERMICULITE }

**bags of 2ltr / 5ltr / 10ltr / 100ltr-bulk bag*

Vermiculite

Vermiculite is well-known for being an effective growing medium. Combined with coir/peat, it creates the ideal conditions for plant growth. Improves aeration of the soil, promotes consistent release of fertilizer and improves moisture retention of the soil.

NATURAL { PERLITE-GROPERL }

**bags of 2ltr / 5ltr / 10ltr / 12kg-bulk bag*

Perlite-Groperl

Perlite creates the conditions for robust root growth, enhances water retention in the root system, and optimizes drainage capabilities.

TERRACOTTA { POT CROCK }

**2kg bag*

Pot Crock

Pot Crock is great for water drainage.
